

1.	Lay paper so that numbers are visible and fold paper up along line #1 to create a crease with numbers and lines inside.
2.	Open paper.
3.	Fold paper along line #2, with numbers and lines inside, to create a crease.
4.	Rotate folded paper so that the closed edge is at the top.
5.	Fold top layer of paper up so that hollow dots appear near the upper corners. Crease.
6.	Flip the paper over, keeping folded edge at the top.
7.	Fold top layer up so that hollow dots appear near the upper corners and crease paper.
8.	Open paper so that hollow dots touch one another and paper remains creased only along line #2.
9.	Rotate folded paper so that the closed edge is at the bottom.
10.	Cut along the crease formed on line #1 until you reach the creases formed by folding the paper to expose hollow dots in steps 5 and 7.
11.	Open paper fully and lay flat with numbers and lines facing down and cut running horizontally.
12.	Pinch the two folds on either side of the cut and lift to stand as a box with two folded wings to the left and the right.
13.	Squeeze the wings to meet in the middle, closing the cube, until the winged-box becomes a plus sign. +
14.	Bring all pages into alignment along the folds to create the spine of your closed book.

1. Fold

2. Open

3. Fold

4. Rotate

5. Fold

6. Flip

7. Fold

8. & 9. Open & Fold

10. Cut

11. & 12. Pinch & Lift

13. Squeeze

4. Close
